

### **CORRECTION**

For the invited commentary regarding the articles “A single-center experience in open and endovascular treatment of hemodynamically unstable and stable patients with ruptured abdominal aortic aneurysms” and “Endovascular repair versus open surgery in patients with ruptured abdominal aortic aneurysms: Clinical outcomes with 1-year follow-up” published in J Vasc Surg 2006;44:1140 and 1148 respectively, the correct title of the commentary should read “Endovascular repair of ruptured abdominal aortic aneurysms”.
